Dear Parents and Carers

**Subject: Government announcement re CR4 postcode 01Feb2021**

In last night's coronavirus briefing from the government, Health Secretary Matt Hancock announced certain postcodes in which an increased number of positive cases of the new South African variant of coronavirus have been identified.

One of these was CR4, in which our Spencer Nursery School site is geographically and members of our school community live.

There has been no directive from the government for the school to close at this juncture. Staff and pupils with agreed places can attend as normal.

Should the situation change at any point, we will of course let you know.

We would encourage residents of CR4 to get themselves tested at the earliest available opportunity as part of the new door-to-door testing programme that Matt Hancock announced this evening for the affected areas, even if they have no symptoms.

Kind regards

Spencer Nursery School
